

AROUND the TOWNSHIP

By Henry Alderman

Everyone in Niles has been admiring the wisteria tree at the Carl Justi place on Second street. Garden fans from other communities should make a special trip to town to see it.

The vine covers the Justi front porch and has taken complete possession of the tree which grows on the parking. Later the tree will bloom in its own right, Mrs. Justi says.

We note that Henry Miller has a new delivery car—a pretty swanky rig. Henry says it's a great inspiration to him in his work.

For the benefit of the subscriber who wanted data on Paul Dougherty, we take occasion to point out that the writer of our farm column is teacher of agriculture at the Washington Union high school and an active member of the Alameda county farm bureau.

Mr. Dougherty is not an "old-timer" in years or farming technique. He is an "old-timer" solely in the fact that he possesses a quality of hard-headed, horse sense. He refuses to get side-tracked by fads, panaceas and untried theories.

Although we have never actually interviewed him on the matter, we suspect that he looks on farming primarily as the best and most independent way of life there is.

The Niles senior chamber of commerce Monday voted to pay a bill of \$2.85 for a telegram to President Roosevelt urging him to take action to stop the S. P. strike danger.

President W. B. Kirk pointed out that the telegram was sent the day the strike impended and that, by that evening, it had been called off.

With this information, the chamber members decided the bill was justified.

What with all these lawsuits Aimee has been having recently, looks like the lawyers are getting all the cream and God is taking the short end.

University Farm Picnic

Last Saturday we went to see the University Farm Picnic at Davis. This is the annual Open House Day put on at the University Farm by the students who are in attendance there. During the morning students in all departments demonstrate what they are doing. All day long a program of stunts and entertainment offer something of interest to everyone. Some events, like the Gymnana, and the Livestock parade, are of direct agricultural importance and others stray far away from the theme of the day.

The Fashion Show-For Example
The course at the University Farm now includes about 100 young women principally in domestic science but some also in the regular agricultural courses. From amongst this group those best adapted to the purpose model all the new clothes which in turn are furnished by the leading stores of Sacramento. The garments modeled run the full gamut of feminine attire from the scantiest bathing suit to the most elaborate wedding gown. During the hour at which this is shown the agricultural displays and exhibits suffer greatly in attendance and the banks of the sunken garden draw an admiring crowd. Yes, we attended the Fashion Show along with the rest of the boys. The attendance at the Agricultural school has swung back with the tide of returning agricultural prosperity and now has reached its greatest peak. There are 1133 students in attendance. Of these about 800 attend the non-

Mr. Harry Knox, secretary-treasurer, of the San Jose Better Business Bureau, will be the speaker of the evening. Mr. Knox has chosen as his subject, "Fakes and Frauds in Business". Inasmuch as the Lions Club is composed of professional and business men, this talk is one every member should be very anxious to hear.

The program has been arranged by the Lions Educational Committee composed of Tom Maloney, A. J. Rathbone and J. V. Gould.

CUB PACK PLANS SPEED

NILES—"A Cub Pack for Niles" will soon be a reality if plans of a group of parents carry through as expected.

Following a meeting of parents last week in the auditorium of the Niles Grammar School, a group of "Dads" including Frank Silva, Ray Devine, Dick Attinger and Seraphine Lucas accompanied W. T. Lindsay on a visit to a Cub Pack in Oakland, after which Leaders of the Oakland Area Cubbing Committee gave these men much information regarding the operation of a "Pack".

A meeting of Fathers of 9, 10 and 11 year old boys (those ages are eligible for Cubbing) will be held at the Niles Grammar School next Tuesday, April 27 to definitely decide on the organization of the local Pack. Following that meeting and a gathering of parents for the necessary instruction, the first meeting of the boys will be held, early in May.

RECKLESS DRIVING CHARGE RESULTS FROM ACCIDENT

MISSION SAN JOSE—Granville Thomasen of San Leandro was cited to appear in the local justice court on a charge of reckless driving with injury, following an accident near Palm Avenue Sunday afternoon involving two local people. Thomasen is said to have been making a left-hand turn across traffic when a car driven by Gilbert Menzies, 22, of Niles, crashed into it. With Menzies were Delyte Burnett, 17, of Oakland who was taken to Highland with possible fracture of the pelvis and internal injuries, and Betty Oldfield, 15, of Centerville, who received numerous lacerations and injuries to both legs. Mrs. Thomasen was taken to East Oakland Hospital suffering from chest injuries, fractured nose and injuries to both knees. Her son Tommy, aged 8, also had a broken nose.

First aid was given to the injured by Dr. E. C. Grau of Niles. The Thomasens reside at 547 Glenn Drive, San Leandro and Miss Burnett at 840-18th street, Oakland. Both cars were badly damaged.

LARGE GROUP HEARS PLANS FOR CONVENTION AT COUNTY MEETING

SPINACH MEN FORESTALL FIGHT

ALVARADO—The main street of Alvarado was crowded with spinach trucks Monday when farmers began hauling their crops to canneries in Hayward, San Leandro and Oakland. Due to labor trouble it had been expected that pickets would attempt to stop the trucks and farmers driving for themselves were escorted by representatives of the Alameda County Sheriff's office to the canneries. No trouble took place but cars loaded with pickets were seen cruising along the highways.

Spinach growers in Washington Township are marketing the bulk of their crop at this season. Each truck load is worth approximately \$50 and would be of considerable loss to the grower if its prompt shipment to canneries were prevented. Trucks congregated at the Alvarado Hotel to await escorts, being taken in groups of six and seven at a time. Convoys continued on Tuesday also.

TRAIN WHISTLE FIRE ALARM

The Newark Fire Department was called out in early hours of Saturday at 3 a. m. to extinguish a fire at one of Manuel Foster's houses. Nobody seems to know how the fire started. This was the first fire in Newark in 1937.

The house was too far gone when the Fire Department arrived and they worked on the pump house which was ready to go up in the blaze. The Dept. saved the pump house and electric motor.

Mr. Foster woke up when he heard a train whistle blowing continuously. He went to see what was wrong, he saw the house next door ablaze. The train whistle aroused not only him, but nearly the whole town of Newark.

Four meetings of the group have been held at Block hall in Hayward and another meeting is to be held at the same hall on Tuesday April 27, Frick says.

The group plans a meeting with union officials in the near future.

Frick, as director for Niles and vicinity, is prepared to give further information on the organization to all contractors here.

Problems of building material men in this district are to be referred to Bonde.

UNIONS OVERDOING

Every effort should be made by local farmers to resist the attempts of union organizers to force them to hire high priced teamster help in taking their produce to market.

It becomes more apparent daily that unionism is developing into a racket which does not benefit labor but which injures all forms of business. Recent strike developments the country over illustrate the old saying that good things can be overdone.

No one quarrels with the often-repeated statements that labor in many cases is ground down by capitalists.

It is becoming equally true that capital and management are being ground down in many cases by labor.

One is as bad as the other.

No matter what kind of economic system we live under, there will always be bosses and there will always be those who are bossed. The hand of a boss like Harry Bridges or John Lewis can be just as heavy as the hand of a boss like Henry Ford or the Du Ponts.

Safety for the average man lies only in a balance of power between the two types.

VOTE FOR THE SCHOOL BONDS

There is no doubt but that Niles needs a new school building. Residents of the Niles district will do well to secure a new building soon.

The present Niles building is probably the worst in Washington township. It is 24 years old, crowded, inconvenient, dilapidated and full of termites.

Compared to modern structures such as the Warm Springs school building, the Niles building is nothing.

The Niles district has no bonded indebtedness and could well stand the cost of such a needed improvement.

A new building should be of sufficient size to take care of normal growth of the community and, possibly, to take care of junior high school classes which one day will become necessary.

Present school board trustees are competent and careful men who will see that the expenditure of a school building fund is done wisely.

SAFETY

SHOULD HAVE FIRST CLAIM ON

Gasoline Taxes

THE PROPOSAL to divert large sums from the State's gasoline tax funds to maintain a few big bridges takes no account of the growing safety needs of California's entire highway system.

In our network of approximately 96,000 miles of roads, the 6 big bridges total about 17 miles.

Since 1926, the State Highway system has been increased from less than 6,600 to over 14,000 miles... more than doubling the mileage maintained from funds expended at the discretion of the Highway Department.

Some Vital Needs

Following are some of the vital needs which these funds have been INADEQUATE to meet:

- ... 250 old bridges on State highways are posted UNSAFE for legal loads and need replacement.
- ... 1,000 bridges are too narrow to afford reasonable safety.
- ... Thousands of grade crossings should be rapidly eliminated.

School buses, trucks and automobiles have crashed and many deaths have been caused by these hazards. Yet gasoline taxes would be diverted from these uses to subsidize a few big bridges... instead of maintaining them from tolls paid by the users.

Sanctity of a Contract

Owners of the Carquinez and Antioch Bridges oppose their acquisition and ask the State to uphold its ratification of our operating contract which lasts till 1948, WHEN THE PUBLIC WILL GET THE BRIDGES ABSOLUTELY FREE.

Write your representatives at Sacramento to protect the gasoline tax funds, needed for general highway maintenance, from diversion to a few big bridges.

Let California Keep Faith!

Published by a Committee Representing the
3,530 Owners of the Carquinez and Antioch Bridges

LEWIS HOST AT LUNCHEON

CENTERVILLE — Manuel W. Lewis, postmaster at Centerville, was host to the Alameda County Postmasters Association at dinner at the Black and White restaurant Wednesday night. A representative of the Federal Immigration Bureau was the speaker.

The Alameda County postmasters will put in a bid for the 1938 convention in Oakland at the State Convention to be held at Long Beach June 15-18. Practically all the local postmasters are planning to attend.

THIEF TAKES 15 PENNIES FROM DECOTO GARAGE IN DARING BURGLARY

DECOTO—Fifteen pennies from the cash register of Kelly's garage at Decoto was the total loot of the thief who pried open the grill work in front of the garage to gain entrance. By the size of the opening it was thought the intruder was a boy, stated Constable Henry Vervais of Niles who investigated. Although there were plenty of tools and tires, etc., available for the thief, nothing but the cash register was bothered. Mrs. Caldeira stated she heard a car stop at the place about midnight but attached no significance to the event. The theft was discovered early the next morning.

LIVERMORE TO FETE PATROLS

All Junior Traffic Patrol boys of Southern Alameda County will be entertained at Livermore on Wednesday, April 21, according to Captain Louis Eike of the California State Highway Patrol.

Captain George Richards, formerly of Niles, of the U. S. Navy Aviation corps and instructor of aviation in the San Francisco public schools will fly from San Francisco to the Livermore Airport and will meet the junior traffic patrols at the Livermore City Hall at 2 o'clock where he will speak to them. The boys will then be taken to the airport where they will inspect the plane and Captain Richards will do some stunt flying for them. George Barron, California State Highway patrolman, is in charge of the party.

PEA PICKING STARTS SOON

WARM SPRINGS—Picking will begin on the 800-acre pea plot on the I. D. E. S. property in about one week. The crop is about 75 per cent, states J. C. Valim, resident secretary of the I. D. E. S. Lodge which controls part of the peas independently and leases land to other farmers. Damage to this year's crops resulted from continued rains, erosion and the red spider. The peas are sold to local buyers who export a large part of the crop. The cut in the crop is expected to be off-set by a good price on this year's market.

300 ATTEND TANGLE AND TWIST CLUB FROLIC

MISSION SAN JOSE—About 350 people attended the dance given at Swiss Hall at Newark by the Tangle and Twist Fishing Club of Mission San Jose. The committee in charge was composed of Joe Leal, George Darrow and George Smith.

The club will have charge of concessions at the Niles and the Mission San Jose Holy Ghost festivals.

ACCIDENTAL DEATH VERDICT IN TRAIN ACCIDENT

CENTERVILLE — Accidental death was the verdict of the coroner's jury at the Chapel of the Palms on Friday in the case of the unidentified man found on the Southern Pacific tracks near Warm Springs recently. The body was too badly mangled for identification. It was thought the man had been riding a freight and fell on the tracks where a train passed over him.

Masonic Home News by JAMES H. HEATH

MASONIC HOME, April 19. What the members of the Home hope is that this two week-end entertainment by visiting delegations constitutes the "opening of the season" for such pleasant affairs.

Saturday evening the home was cheered by the annual visit of the Albany Y. M. C. A. and Community Center entertainers, with C. E. Morris, Secretary, as master of ceremonies, assisted by John Berger, general secretary of the Berkeley group organization.

CHANGE NEAR IN HIWAY ROUTE

NILES—Of interest to those who have objected to the new highway's taking the heavy traffic from the main street, the following item from The Oakland Tribune will be of interest:

"HAYWARD SEEKS CHANGE
IN ROUTE OF HIGHWAY".

Business Area Elimination is Suggested.

Connecting link with Niles Road, Foothill boulevard.

To be offered State Heads.

Construction of a highway link connecting Niles Road and Foothill boulevard with a view to routing heavy traffic around the business district has been favored by the City Council and the Chamber of Commerce. The improvement was agreed upon by directors of the Chamber of commerce and Councilman Robert Kolze, representing the city as the most urgently needed at this time by Greater Hayward area.

A committee from both groups will lay the proposal before the State Highway commission at Sacramento on May 7, it was stated. Those who will confer with the commission include Edward L. Macabane, president of the Chamber of Commerce; Ernest L. Clements, I. B. Parsons and L. U. Griggs.

It is proposed that the link connect with the Niles Road in the vicinity of Jackson street, cutting across town to join with Foothill boulevard, thereby swinging heavy traffic away from Castro street, the principal thoroughfare.

Widening and improvement of Foothill boulevard from Castro Valley boulevard into Hayward also has been recommended to complete the "straight shoot" from Southern Alameda County via the Foothill boulevard.

An all day meeting of the board of trustees of the Masonic Homes of California was held at the Decoto home, Sunday, with Charles M. Wollenberg, president, Charles Albert Adams and Leon Whitsell, present, John Whicher, veteran secretary of the grand lodge, and also serves in the same capacity for the Masonic Homes in the group. Mr. Whitsell was accompanied by Mrs. Whitsell, who was entertained by Matron Richardson.

Members of the home were grieved to learn from the announcement of the Albany Y. M. C. A., secretary, Sunday afternoon, of the critical illness of Chief Justice William H. Waste, for many years president of the Berkeley Y. M. C. A. group, who had planned to accompany the delegation. Justice Waste was so kind as to send his regrets. Incidentally Justice Waste is the Junior Warden of the grand lodge of masons, and as such is a member of the board of trustees of the homes at Decoto and Covina.

1937 Ford V-8

• If you think that "all low-price cars cost about the same"—forget it! They don't.

Ford makes a car—a 60-horsepower economy Ford V-8—that sells from \$30 to \$60 dollars under the prices asked for any other car of comparable size. The lowest Ford prices in years!

Check delivered prices in your town and see for yourself.

• Of course, first cost doesn't prove "low cost"—you must consider operating cost also.

The "60" has definitely established itself as the most economical car in Ford history. Ford cars have been famous for economy for 34 years, so that means something!

Owners who have driven it thousands of miles report that the Ford "60" averages between 22 and 27 miles on a gallon of gasoline.

You can prove those figures—on the open road—in a car provided by the nearest Ford dealer.

• When you've finished your personal check-up, ask yourself:

"Do I want to save money the day I buy my car and every mile I drive it?"

"Do I want a safe, roomy, comfortable car of advanced design—created from the finest materials to the highest precision standards?"

There's only one answer, of course—the 1937 Ford V-8.

Ford V-8 \$529 at Dearborn Factory. Prices Begin at 529 Transportation charges, State and Federal taxes extra. This price is for the 60-horsepower Coupe equipped with front and rear bumpers, spare tire, horn, windshield wiper, sun visor, glove compartment, and ash tray. \$25 A MONTH, after used down payment, buys any Ford V-8 Car, from any Ford dealer, anywhere in the U. S.—through Authorized Ford Finance Plans of Universal-Credit Co.

An Old Institution

The Farm Picnic has been an annual event now for about 26 years. The personnel of the crowd changes through the years but always there are faces like George Hecke and Judge Peter Shields, who speak for the great agricultural industry of the Sacramento Valley and who return once more to view the institution in whose founding they had an important part. It seems to us, though, that the complexion of the crowd changes more than its numbers—fewer are adults and picnicking farm families and more youth of high school and college age. We hope the rural picnic feature does not die out as country life needs, too, its holidays and its occasions centered around rural things.

Ladino

Except for the brief months of spring pasture, Washington Township dairymen have through the years spent most of their time cutting and hauling feed to dairy cows. While the sleek cows stood at their ease or lay dozing in the sun, the dairyman, with ant-like activity, cut, raked and pitched hay through the long summer days. Wouldn't it seem a wiser and better world if the cows gathered their own rations through the heat of the summer and the dairymen rested in the shade between milkings. Perhaps in this imperfect world we can never quite reach this goal for we must put up hay for the cows to eat when it rains and no green feed can be pastured.

Ladino Clover should eliminate at least half the labor in providing cows with feed. Besides eliminating this labor, it would improve the health, lengthen the life and promote more regular calf bearing amongst the cows. Poultrymen, such as John Oliveira Jr., of Newark, have demonstrated that we can grow this wonder crop as well as any section. Hansen & Orloff dairy, under the management of Bill Benbow, now have a nice stand of mixed ryegrass and ladino upon which they will tryout pasture feeding this summer. We predict that Ladino will have a permanent place on our dairy farms soon.

brightly painted implements for tilling the "Good Earth"? Once again we saw those magic words, "McCormick-Deering", and other familiar legends, and were transported then to our Grandfather's old farm, and our childhood. We were again with our brother and sisters following the binder, upon which we saw emblazoned in great letters on its canvas shield, the word "McCormick"—Our heart was filled with happy memories, of searching among the stubble and finding wild strawberries—and sometimes a nest of meadow larks, as we followed the binder through the fields at harvest-time.

And so it was that we turned in to the big showroom where a nice young man, Mr. Day, showed us through the place filled with great silent tractors and implements of all kinds, fitted with the very latest, modern improvements, and ready to be driven out to the waiting ranches.

Proud is the man who owns one of these, for they are on the whole, a far cry from the farm machinery used by our grandfather.
